

Plus med gode venner

Prøv at «knække» tallene, så plus-stykket bliver lavet om til «de gode venner» plus resten. Se eksemplet:

$$4 + 8 = \overset{10}{\underbrace{4 + 6}} + 2 = 12$$

$$5 + 8 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$4 + 7 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$3 + 9 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$2 + 9 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$5 + 6 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$8 + 8 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$7 + 7 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$8 + 4 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$6 + 8 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$7 + 5 = \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$
